

Water Resources Senior Civil Engineer

Brezack & Associates Planning LLC, (B&AP) seeks a Senior Civil Engineer/ Project Manager in the Water Resources practice area to join our Walnut Creek, CA office. The Senior Civil Engineer/Project Manager will have lead responsibility for the design and preparation of plans related to water resources projects focused primarily on master planning, feasibility analysis, design review, hydraulic modeling, distribution system analysis, as well as conventional wastewater treatment facilities and membrane process. Typical water resources projects will also include regulatory permitting, funding assistance, cost estimating, scheduling for water and sewer projects.

Additional Responsibilities Include

- Direct and participate in the preparation and completion of comprehensive technical reports and presentations
- Develop project approaches to meet specific goals and objectives including the preparation of detailed scopes of work, schedules, and budgets
- Manage multidisciplinary engineering projects to achieve client goals within scope, schedule, and budget constraints
- Prepare and make presentations at professional meetings with clients and technical teams
- Support and lead business development endeavors such as client outreach, proposal writing, and interviews
- Act as a liaison and effectively maintain client relationships
- Participate in improving company resources and tools to improve quality and efficiency
- Assist with and lead business development pursuits.
- Supervise, delegate, direct, coach and mentor junior technical staff

Desired Skills And Experience

- B.S. degree in Civil or Environmental Engineering; M.S. preferred
- 7+ years' experience in the field of water resources
- Professional Engineer (PE) License
- High proficiency in performing engineering planning, design and calculations supporting pipelines, pump stations, reservoirs and hydraulic structures
- Strong project management skills with demonstrated experience managing staff within scope/schedule/budget
- Successful marketing, proposal writing, proposal management, and public presentations experience a plus
- Strong written and verbal communication skills with demonstrated ability to conduct effective presentations and prepare written reports and documents
- Strong working knowledge of California water

Interested candidates should apply to careers@brezack.com and include resume, cover letter and salary requirements. No calls please.
